ELDER PICK UPS TAKE PLACE EVERY WEDNESDAY, SCHEDULE IS MADE IN ADVANCE.

*** ACCEPTABLE PICK UP ITEMS FOLLOW THE TRANSFER STATION GUIDELINES.

TO SCHEDULE FOR AN ELDER PICK UP CALL
DESIREE MORALES-WHITMAN AT 760-651-5142

The San Pasqual Environmental and Water Departments strive daily to improve and preserve the environmental quality of the San Pasqual Reservation, this includes but is not limited to surface and ground water quality testing managing solid waste, native plant restoration, erosion control, renewable energy, illegal dump clean up, site restoration and environmental education and outreach.
Rain Harvesting

Throughout the last few years the Environmental Department has promoted rain harvesting through our Rain Barrel Pilot Program, this year we will be expanding our methods by adding two new barrels options, rain chains and Rain Gardens. The two new barrels options have screen tops which can be used with gutters or rain chains and allow for easy installation. The rain chains can also be used cosmetically on homes with gutters or on homes without gutters, although we do recommend installing rain gutters for best results. In addition to the rain barrels we have added Rain Garden Pilot Program to our harvesting methods. All options are a part of the tribe’s goals to reduce potable water usage and increase awareness of clean water usage and options.

These pilot programs are part of EPA Clean Water Act and Non-Point Source grant objectives and are limited in numbers, participation in pilot programs is on a first come first serve basis.

To find out more information on these programs you may contact San Pasqual’s Clean Water Coordinator Vanessa Martinez at 760-651-5151 or by email at vanessam@sanpasqualtribe.org
San Pasqual Environmental has published a 2020 events calendar. Pick yours up at the Environmental Department or the San Pasqual Tribal Hall.
